

Volunteer!

Individuals, families and groups can have fun, make new friends and learn new skills by volunteering with James City County Parks and Recreation.

Available Opportunities

Adopt A Park

This volunteer initiative offers citizens and organizations a lead role in the beautification and care of our public areas. Through this program, citizens support Parks and Recreation in continuing efforts to make County parks, trails, playgrounds, flower beds and greenways safe and attractive while helping lower maintenance and equipment costs. Your group, business, club, or community association can become involved and be publicly recognized as an “adopter.”

As one of their community service projects, ten members of Daisy Troop 1382 pulled weeds, planted spring bulbs and mulched flower beds at Chickahominy Riverfront Park this past fall. The troop plans on returning to the Park in the spring for additional clean-up and planting projects.
